The Best Way to Enjoy America

(314SO Floorplan Shown w/Royal Onyx Decor Selection)
Decor Selections
Dazzling interiors feature skillfully coordinated upholstery and window treatments. Coachmen RV chooses only top-grade fabrics wear-dated as heavy-duty. These fabrics have been tested for durability beyond 15,000 double rubs (in and out action) to simulate heavy usage. An average chair in an American home is subjected to only 3,000 double rubs per year.

Tumbling Waters
Spiced Parsley
Royal Onyx

Designed to be the value leader in the Class C Motorhome market, the Freedom by Coachmen™ has earned its stripes. Large exterior storage bays and the Stow-N-Go™ rear garage storage on most models let you take it all with you. The interior is also well equipped with a double door refrigerator, deluxe pressed cabinet doors, high spout faucet, self edged countertops, and easy to clean vinyl flooring.
The handy cockpit convenience area features room for 2 large drinks, $.05, $.10, and $.25 change holder, and extra miscellaneous storage for your essentials like sunglasses, road maps, and tissues.

Our standard metal drawer guides with glide wheels provide a friction free sliding drawer that is extremely durable. The drawer glides also act as a catch so that the drawer will not slide open during travel. Simply lift up and pull to open the drawers.

The large Stow-N-Go™ garage storage is standard on most models and provides an enormous amount of organized storage space.

The Freedom 314SO features an enormous side storage bay that provides plenty of space for your stored gear.

Safety is paramount at Coachmen. All units come standard with an LP leak detector, fire extinguisher, smoke detector and Carbon Monoxide detector.

The high spout faucet is a nice residential touch that makes for simple cleanup of your taller pots and pans. You can also easily fill up your ice-tea jar on a hot summer day.

The handy cockpit convenience area features room for 2 large drinks, $.05, $.10, and $.25 change holder, and extra miscellaneous storage for your essentials like sunglasses, road maps, and tissues.

Coachmen’s SureLine™ Electrical Harness provides color coded wiring and specific wiring schematic for easy serviceability. High quality automotive electrical connectors and autoloom protective covering make for a reliable and durable harness. The wires are grouped together and neatly tucked into the framework under the coach, safe from road debris.

The standard double door refrigerator is designed for maximum storage capacity with door storage and a handy freezer shelf. A convenient refrigerator light is also standard for those midnight cravings.

Coachmen RV is committed to providing a high quality, reliable, and innovative product. We know that quality extends far beyond the “glitz” of a recreational vehicle and often, the most important aspects of quality are hidden in the design and construction of the coach. That’s why Coachmen designs quality into our products up-front, through computer aided design and analysis software. This helps to assure appropriate weight distributions, structural integrity, alignment of the various parts and components and overall reliability of the design.

Our attention to quality does not stop on the computer screen, as all of our major product designs undergo rigorous road tests, rain booth testing, complete compliance audits for all codes, standards and safety related items, and comprehensive product audits. Coachmen designs, builds and markets a superior product, for reasons that may not always be easy to see, however are very easy to appreciate.
